

Sponsor radio equipment and let the Gospel echo across the Russian world--over New Life Radio-Moscow

A DECADE HAS GONE BY, and some of our studio equipment is getting old and unreliable. CHRISTIAN radio is not only broadcasting God's WORD, but a sequence of electronic equipment where every piece must work perfectly, 24 hours per day, year after year, if our network is to stay on the air.

Christian Radio for Russia is looking for Christian partners in America to help replace critical portions of our New Life Radio studios in Moscow so we can continue broadcasting long into the future.

Our Goal: \$15,500

NLR main studio A control center with AudioArts R55 console and Radio Automation system
Listen to it at www.NLRadio.net

HERE IS WHAT WE NEED
